with some friends, and there could
be no more than a few minutes
of rest; and we were back at it
again, and so it went all day long.
I was very tired, but I had to
go on.

On the way home, I saw a
child sitting alone in the street,
and I thought he must be lost.
I stopped and asked him where
his father lived, and he told me
he lived in the same house as
the man who had been killed.
I took him home, and his mother
was very grateful to me.

I have seen many other things
that are very strange, but I
will not tell you about them
now. I will tell you about one
other thing that happened to me
when I was in the hospital.

One day, I was lying in bed,
and I felt very weak. The nurse
came in and said she had some
news for me. She said that
my doctor had decided to let me
go home. I was very happy to
hear that, and I thanked her
very much.

I went home the next day,
and I felt very well. I had been
in the hospital for two weeks,
but I had learned a great deal
about myself and my health.

I am now very strong and
happy, and I can do everything
that I want to do. I am very
grateful to the doctors and nurses
who took care of me, and I
am glad to be able to go on
with my life.

I hope that you will also be
able to get well soon, and I
hope that you will be able to
do everything that you want to
do.

I am your friend,
John Doe

P.S. I have written this letter
to you because I think you
will find it interesting. I hope
you will write back to me soon.

New Steam Saw Mill.
High above Salmon River City
a magnificent saw mill is being
erected. It is a fine example of
modern mill construction. The
mill is being built on a high
point of land, and the saw
logs are being cut by a
large saw. The mill is being
built by the Salmon River
Lumber Co. and the saw logs
are being cut by a large saw.
The mill is being built by the
Salmon River Lumber Co. and
the saw logs are being cut by
a large saw.
